Welcome

Started in 2000 by Mike Reid, whom has become a respected name in the abrasive grinding segment manufacturing industry, Scorpio Abrasives has proven that even a small company can compete with larger manufacturers

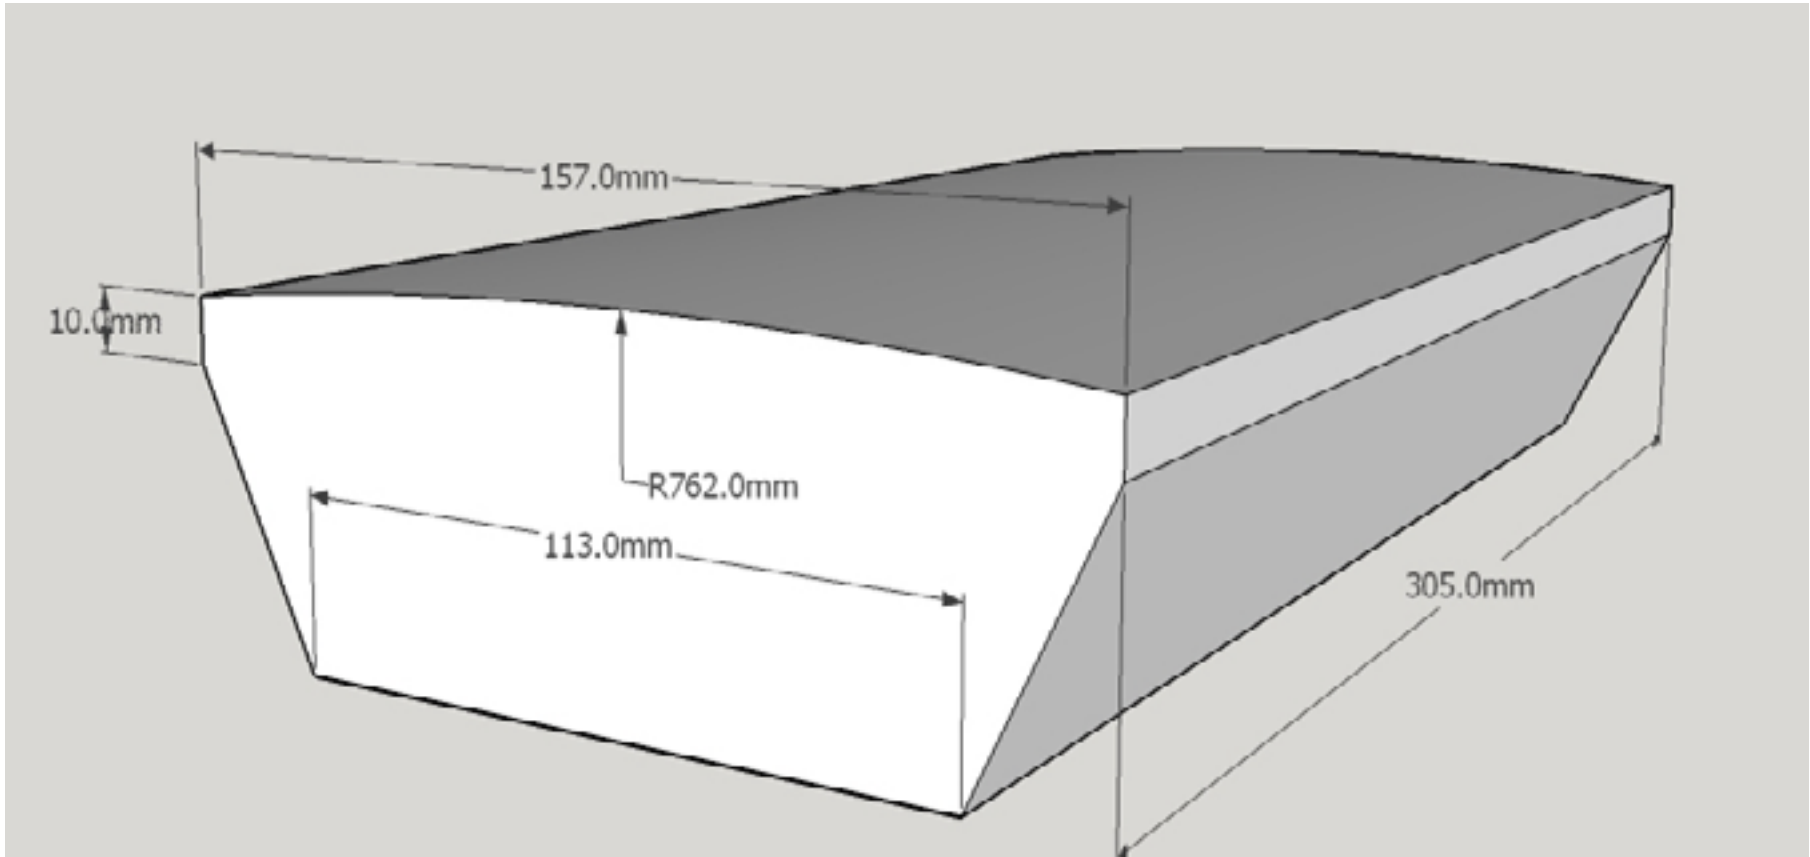

Build on the principal that a company can only thrive when its customers are pleased, Scorpio Abrasives has moved from a one man operation to a strong competitor in the abrasive grinding segment manufacturing market.

Only by using the best quality of raw materials available and the latest manufacturing techniques are we able to deliver high quality products at competitive prices constantly to our customers.
